Introduction

A student identity card is an official document that is used to identify students and staff members.

What is a Student ID Card?

A student identity card is an official identification document used at the institution for students.

Why Should I Have a Student ID Card?

A student identity card allows each student to be uniquely identified both on and off campus. A student with an identity card will be eligible to access other benefits such as:

- a.) Access to services offered at the institution e.g. Exams, ICT, Admissions, Accounts
- b.) WUA Library access, resource checkout, photocopying & printing
- c.) Access to examination venues, computer labs and lecture rooms
- d.) Entrance to sporting events held at various institutions around the country and region

Where Do I Get a Student ID Card?

Logon to your student portal via <http://portal.wua.ac.zw> to apply for a student identity card. This platform helps you to apply for your student identity card without physically being present on campus.

When Should I Apply for a Student ID Card?

All students are required to possess a student identity card within the first two weeks of semester commencement. Once a student number is allocated to you from the admissions office, an account is automatically created for your student portal. You are advised to logon to the student portal and apply for your student identity card.

How Much Does It Cost?

All new students are allocated student identity cards at no cost and each student identity card is expected to last the full tenure of the programme each student is undertaking. However, if a student misplaces, loses or needs to replace a student identity card, the student will be required to pay stipulated replacement fee as guided by university management.

The image displays two screenshots of a mobile application interface for replacing a student ID card. Both screens are titled 'Follow Steps 1 - 3' and feature a green header with 'Hi,' and three tabs: '1. Instructions', '2. Replace', and '3. Status'. The left screenshot shows the '2. Replace' tab selected, with a 'Choose Request:' section containing three radio button options: '1. Replacement' (selected), '2. Rejoined', and '3. Reapplied'.
